

# Level 2 Certificate

## LEAN ORGANISATION MANAGEMENT TECHNIQUES

This qualification will develop an understanding of lean organisation techniques and the skills required to work effectively in a team in the business sector and is ideal for learners working in areas where improvements to quality, processes and costs have been identified.

The course is suitable for individuals working in a business improvement role who wish to assess their knowledge and understanding and also for individuals who are new to business improvement and who need to confirm practical understanding and application of skills and who require an understanding of business improvement practices.

A lean organisation provides the greatest customer value with the fewest resources, which is increasingly important in today's business market.

### COURSE UNITS INCLUDE
