

## Level 2 Certificate

### PRINCIPLES OF WAREHOUSING

This free course provides a route to employment in the warehousing and logistics sector. This TQUK course will provide you with an understanding of a variety of warehouse processes including stock checks, processing orders, packaging of goods, preparing goods for dispatch and the correct manual handling techniques.

You will also learn about the best health and safety practices to help minimise potential risks and how the customer service process impacts a warehousing or logistics organisation.

#### COURSE UNITS INCLUDE

- Health and safety requirements in a warehousing environment
- Understand the principles of warehousing goods
- Understand the process of stock checking and preparing goods for dispatch
- The importance of customer service in a warehousing environment

#### FREE ANDROID TABLET

on completion of this course
