End point assessment

End-point assessment (EPA) is **an independent assessment that takes place at the end of the apprenticeship training**. This is to test that the apprentice is competent in their occupation. All apprentices must complete an EPA. There are a variety of assessment methods to test apprentices' competency.

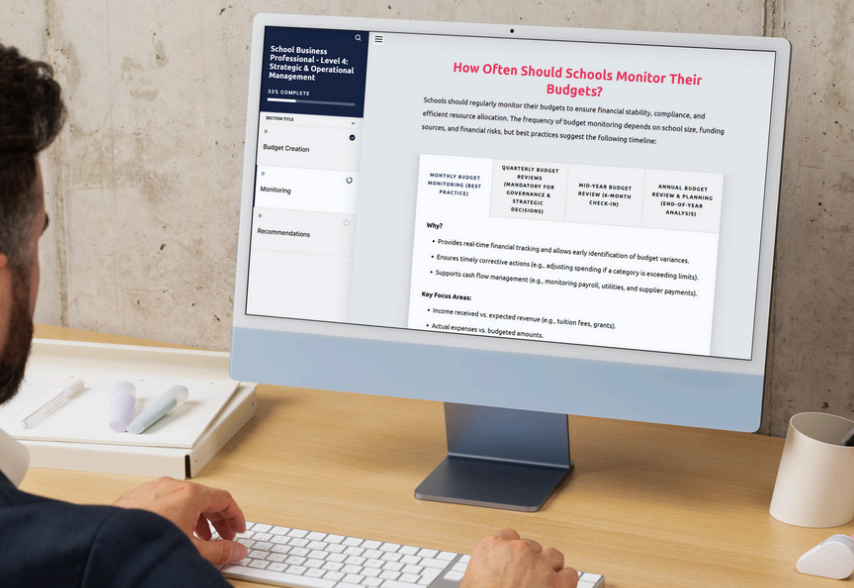

Gateway

Gateway takes place before an EPA can start. LMP Education will work with the employer to **review their apprentice's knowledge, skills and behaviours**. This period of time is used to see if the apprentice has met the requirements of the apprenticeship set out in the apprenticeship standard, and they are ready to take the assessment.

Functional Skills

LMP Education provides functional skills support to all our learners. While functional skills are no longer a requirement for learners who are 19+, LMP still offers functional skills training for those who choose to take the qualification.
