Employer Benefits

- Taking on a Teaching Assistant Apprentice is a valuable investment for employers looking to strengthen their team and nurture future talent in the education sector. Apprentices bring enthusiasm, fresh ideas, and a willingness to learn, helping to create a skilled and motivated workforce.
- Hiring an apprentice is a cost-effective way to grow your team. This apprenticeship is government-funded (up to 100% depending on the size of your business) and can be funded using the apprenticeship levy.
- Apprentices are trained on the job, allowing you to shape their skills to fit your school's specific needs. Apprenticeships open doors for people from different backgrounds, helping schools reflect their communities.
- By offering apprenticeships, you're investing in the **future of your workforce**. Apprentices are more likely to stay with employers who support their development, helping to improve **staff retention rates** and create a loyal, highly skilled team. Developing staff from within also boosts team morale and creates a **positive working environment**.

End point assessment

End-point assessment (EPA) is **an independent assessment that takes place at the end of the apprenticeship training**. This is to test that the apprentice is competent in their occupation. All apprentices must complete an EPA. There are a variety of assessment methods to test apprentices' competency.

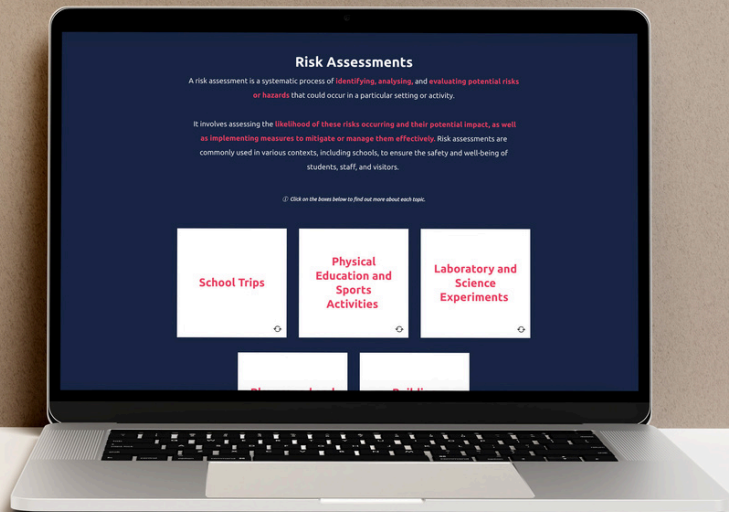

Gateway

Gateway takes place before an EPA can start. LMP Education will work with the employer to **review their apprentice's knowledge, skills and behaviours**. This period of time is used to see if the apprentice has met the requirements of the apprenticeship set out in the apprenticeship standard, and they are ready to take the assessment.

Functional Skills

LMP Education provides functional skills support to all our learners. While functional skills are no longer a requirement for learners who are 19+, LMP still offers functional skills training for those who choose to take the qualification.
